OpenCart - TrustPay Payments Implementation Guide

This document describes the steps to be taken to integrate TrustPay Payments into your OpenCart e-commerce website.

1. Register for a TrustPay Vendor Key:

- Goto <https://my.trustpay.biz>
- Click on SignUp and create a new user account.

The screenshot shows a web browser window displaying the TrustPay registration page. The browser's address bar shows the URL <https://my.trustpay.biz/signup>. The page has a dark blue header with the TrustPay logo and navigation links for 'Sign in' and 'Sign up'. The main content area is titled 'Create your free personal account' and contains two sections: 'Personal Details' and 'Account Details'. The 'Personal Details' section includes input fields for 'Firstname' (with 'Open' entered), 'Surname' (with 'Cart' entered), and 'Company name' (with 'OpenCart' entered). The 'Account Details' section includes an 'Email' field (with 'info@trustpay.biz' entered), a 'Password' field, and a 'Password Confirmation' field. A yellow box below these fields contains the text: 'By clicking on "Create my account" below, you are agreeing to the [Terms of Use](#) and [Privacy Policy](#).' At the bottom of the form is a blue button labeled 'Create my account'. A vertical 'Feedback & Support' link is visible on the right side of the page.

- You have to verify your email and then you can sign in to <https://my.trustpay.biz>
- Goto Settings > Profile to complete KYC information.

Feedback & Support

- You have to download the TrustPay agreement, print it, sign it, scan it and upload again.
- You have to upload a copy of your Identity document or passport and proof of residence. This will enable us to pay you up to USD 20,000 per month.

Application Details

Application Name
OpenCart Site

Notification URL
http://demo.opencart.com

URL to which notifications associated with your application will be sent to.

Shared Secret
opencart_secret

A shared secret for signing notifications associated with your application.

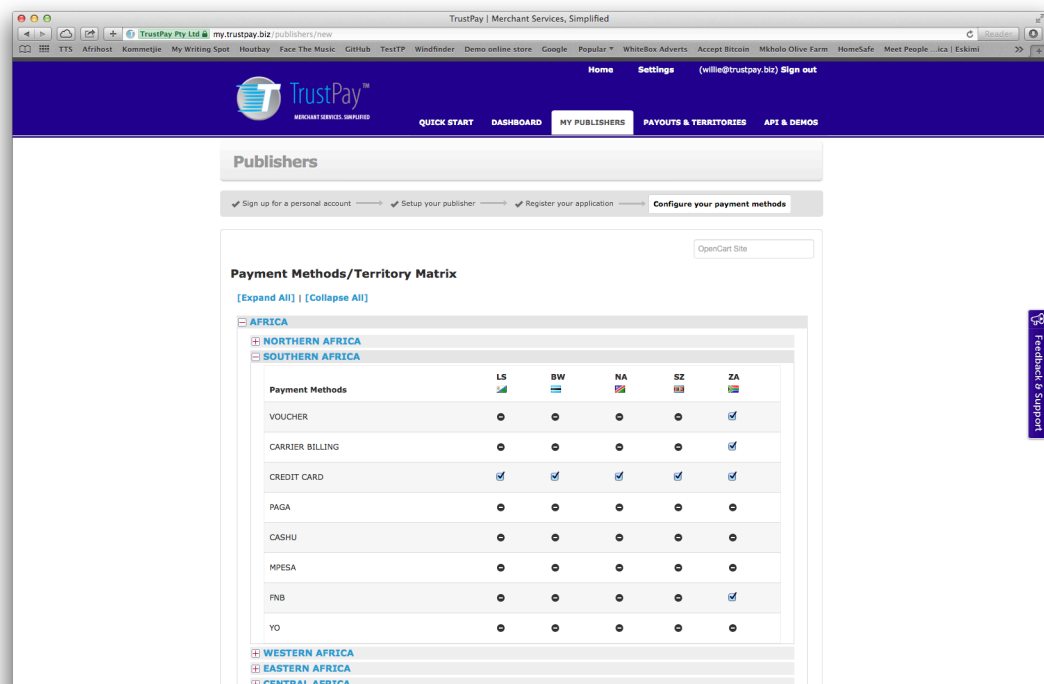

Add Application Cancel

Applications have their own context
The application you choose to create on the following screen will be assigned to the Publisher selected.

Notification URLs
When a transaction occurs, our server can notify yours via this URL. The message is signed with the shared secret to prevent spoofing.

Feedback & Support

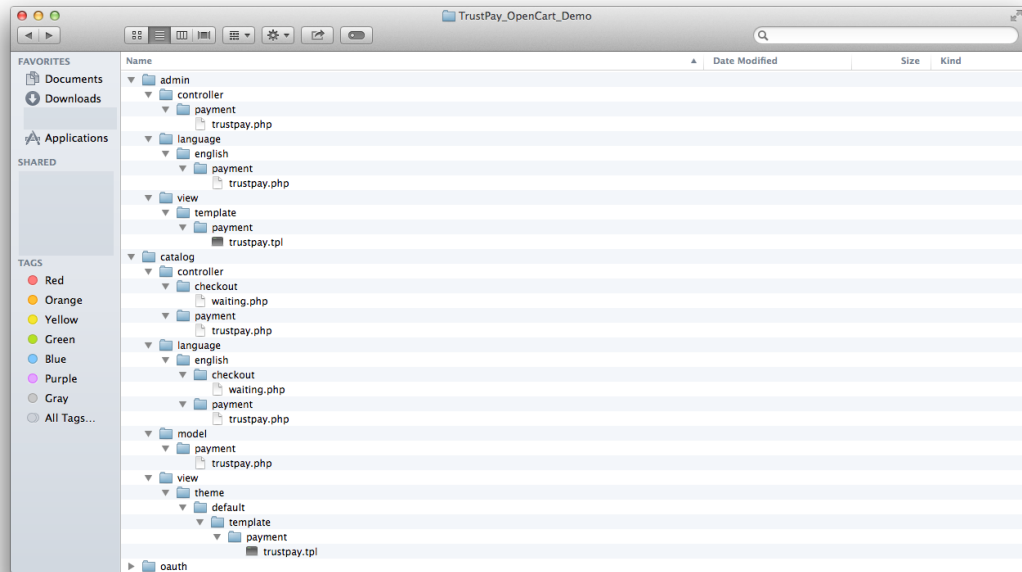

- The notification URL must be :
<http://your.opencart.url/index.php?route=payment/trustpay/notification>
- Where “<http://your.opencart.url>” is the URL to your OpenCart installation.
- Shared-Secret is any secure shared secret you choose.
- The Notification URL and shared-secret have to be configured on the OpenCart side as well.
- Select the territories and payment methods that you want to support.

- Goto the Publisher and then the Application that you have created and take note of the “**Application ID**”

2. Install TrustPay plugin files in OpenCart installation:

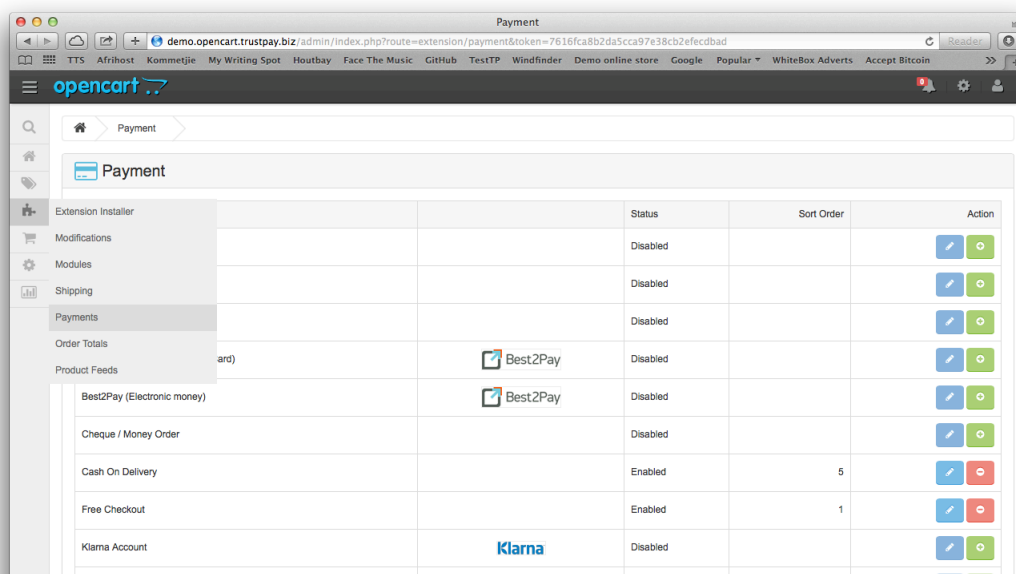

- Clone the TrustPay OpenCart plugin files from :
https://github.com/trustpay/TrustPay_OpenCart_Demo
- You should have the following files and directory structure:

- You need to copy these files into the corresponding directories of your OpenCart installation.

3. Configure OpenCart installation for TrustPay plugin:

- Log into your OpenCard admin section
- Click on Extensions > Payments

- Scroll down to TrustPay and click on “Install” (green) button

- Click on the "Edit" (blue) button next to TrustPay.
- You will see the following page:

TrustPay

TrustPay Vendor ID:
The vendor_id for your specific store obtained from my.trustpay.biz.

TrustPay Notification Url:
The notification url for your specific store entered on my.trustpay.biz.

Shared secret:
The shared secret for your specific store entered on my.trustpay.biz.

Total:
The checkout total the order must reach before this payment method becomes active.

Order Status:
